Every day in a lot of ways, we rely on smart phones to communicate, keep track of calendar events and remember where we parked the car. The internet and its services has changed the way we do things and now even the simplest of tasks are all done through the use of apps. While it is hard to imagine, we are also no longer limited by hardware. New technology can make all kinds of devices smaller, faster, more flexible, and in some cases even more intuitive. This is exactly what is happening in our realm of mobile devices. There are now a lot more options when it comes to navigating through the phone and instead of desktop icons, the device has a plethora of shortcuts. If you want to make your phone faster and easier to use, you can try the following tools. It is essential that you do this since your documents will have the same font and size as all the other images. If you select "pdf" in the preview box in the Organizer window when importing files, they will be imported as PDFs. How to properly resize your images? If you want to resize an image, all you have to do is move the handles (circled in red in the picture above) on the bottom right corner to drag. Move the handles slowly so you do not accidentally lose an image. If you have long hair, hold the mouse button down while moving the handles. The best way to have your images as small as possible Select them Go to Menu-> View-> Fit To Window If there is a problem, please contact us and we will try to help you. How to Add an Image Click on the "+" button Click on the folder you want to add the image to Select an image from your computer Click Open How to Add a Folder Click on the "+" button Go to the folder you want to add Select the folder you want to add Click Open How to Import from Device to PC Go to the Device Click on the Folder with pictures you want to transfer Click on the "+" button on the bottom right corner of the screen Click on PC Click on the Folder you want to import Select the folder to transfer Click Open How to Delete an Image Click on the red minus sign (on the right of the image) to delete the image from your computer
