short fun good time passer 9/10. It's a fun game to spend extra time on. Can get a bit frustrating but overall, it's alright.. This game i really good. The game itsself has a great potential, but i feel like its missing something. Something breath-taking; like an action or somewhat. Anyways, its a good way to waste a time, its fun and you need a brain to finish the game. In some point(s) the game is pretty funny, some sarcastic jokes flying around, but at end of the day, its a bit boring.. Pretty good and relatively fun time killer. I didn't encounter any glitches and it doesn't take up much space at all.. really good puzzles and fortunately is better than number 1 10/10 this one. I love this game, it's a good time passer. Although, 6-5 is super difficult to pass. Not sure if anyone else had a problem with it, but it's annoying me.
